

BIOTREMOMOLOGY CONFERENCE

SAVE THE DATE!

Piran, Slovenia,
19-23 September 2020/21/22!

The 3rd International Conference on Biotremology aims to bring together researchers and students of vibrational communication to strengthen collaboration, develop new ideas and research, and to form a strong supportive network for the emerging field of Biotremology.

Note: due to the unforeseeable epidemic situation in autumn 2022, the conference may have to be hybrid or held entirely online. Please follow the organizing team's announcements to stay updated.

Features:

- plenary talks by invited speakers,
 - more than 30 talks overall,
 - poster session with flash talks,
 - competition for the best student oral and poster presentation,
- plus
- workshops and round tables,
 - excursion and other social events
(if live conference is possible)
